

## SMASH!2022 Itasha Terms & Conditions

Are you interested in displaying your itasha at SMASH! 2022? Then sign up for the SMASH! Itasha Car Display!

These Terms and Conditions apply to all applicants. Please note this means our terms and conditions may be amended from time to time by SMASH Inc. For the SMASH! 2022 event (16 July 2022 to 17th July 2022), SMASH! Sydney Manga and Anime Show, hereafter referred to solely as SMASH!, reserves the right to changes made to space available, circumstantial changes, misconduct, etc

### Conditions:

- SMASH! 2022 Itasha cars will be displayed indoors on the event deck.
- If you have multiple itashas, please fill out this form for each car that you wish to submit.
- Your car will remain on-site for the entire convention, meaning you will need to organise alternate transport to make your way home.
- You will be asked to drop your car off the day before the convention (Friday, July 12th) in the evening, and you will be able to pick it up at the end of the convention (Sunday, July 14th). Exact access times will be circulated to successful applicants.
- During the convention, the cars will be behind barricades and a no-touch policy will be enforced for attendees.
- The venue is monitored by security and will be locked down after every day to ensure the safety of all cars.
- SMASH! and the venue does not hold responsibility for any possible damage to your car.

If the images do not match the car of submission, they will not be permitted to enter the premise.

Successful applicants will receive a complimentary weekend pass to SMASH! This will be provided shortly after bump-in procedures

Your details will remain confidential and follow the SMASH! Privacy Policy:

<https://smash.org.au/privacy-policy>

If accepted, to successfully display your itasha vehicle at SMASH! 2022, you will be required to complete a Sydney Vehicle Display permit form from the Sydney International Convention Centre (ICC). The form outlines the following rules:

- A separate set of keys are to be left with ICC Sydney Security during the event in the instance of an emergency.
- Drip trays are required to be placed underneath the vehicle to prevent spillage.
- Maximum of five litres of fuel in the vehicle (no need to clear fuel from the fuel line and engine).
- Battery to be disconnected when vehicles are unattended.
